

DESIGNER ELECTRIC ROLL-UP

PRODISPLAY USA offers a range of designer electric roll-up screens using our industry standard projection cloth with a gain of 1 and offering a full 180° viewing angle.

Ideal for both professional and home theater use, each comes with our unique designer oval shaped aluminum housing and shaped, decorative wall bracket providing an overall sense of style and quality.

Available in sizes from 84" to 114" in both 4:3 and 16:9 aspect ratios, these screens integrate well into modern and contemporary interiors, adding a definitive touch of class to any presentation room.

Featuring stylish black borders, each screen is complete with mounting brackets and RF hand-held remote control.
