

A Touch

Add WOW and class to your next marketing campaign.

PRODISPLAY™ USA interactive window displays

Goal: create a new and compelling way to bring in customers. Must have big wow and high impact.

Solution: **PRODISPLAY** through-window interactive touch screens. Allows you to use existing marketing collateral and website to reach your customers both day and night.

Customers receive text message coupon for today's promotion.

PRODISPLAY offers the biggest and brightest projection screens in the industry. With the widest selection of screens available, your message can be seen in direct sunlight with Sun Screen™ or holographic floating images in controlled low-light environments with Clearview™.

Increase your **ROI** with **PRODISPLAY** interactive touch screens by communicating with your customers, day or night, and collect email and text message information for future marketing campaigns. **Obtain instant feedback from your customers!**

Applications are limited to your imagination.

of Glass...

"With a few simple touches, Penny was able to design her dream car and send it to the dealer for quote."
