

TITANIUM™

Our specially formulated rigid flat front projection screen providing high gain, high contrast and perfect color reproduction in high ambient light conditions.

This unique technology offers superior performance, even in daylight conditions, making it the preferred choice for front projection applications.

There is no need to turn down the lights with Titanium. In sizes up to 138" diagonal, Titanium delivers bright and vivid images.

Panels can be multiplexed for large screen, virtually seamless presentations.

Features

- Peak Gain: 4.0
- Viewing Angle: 140°
